

As a courtesy to our guests, the information below applies to requirements for border crossings only. Please refer to government websites for full details.

## **CANADIAN COVID-19 TRAVEL REQUIREMENTS FAQ**

### ***What are the requirements for Canadian border travel to the United States?***

- Adults over the age of 18 will need to confirm, or show proof, that you are fully vaccinated
- Children under the age of 18 are exempt

### ***Do I need to show a molecular (PCR) test to enter the United States?***

- You do not need to provide a negative test to enter the United States, however, the Canadian government requires their citizens to have a negative COVID-19 test that is no more than 72 hours old by the time they re-enter Canada
- Canadians can take a COVID-19 molecular test before traveling to the United States as long as they return within the 72-hour window

For more information regarding travel to the United States see:

[www.dhs.gov/news/2021/10/29/frequently-asked-questions-guidance-travelers-enter-us-land-ports-entry-and-ferry](https://www.dhs.gov/news/2021/10/29/frequently-asked-questions-guidance-travelers-enter-us-land-ports-entry-and-ferry)

### ***Do I need a second COVID-19 test to re-enter Canada?***

- If your test result is over 72 hours old, yes you will need to take a new pre-test in the United States in order to return home.
  - A pre-entry molecular test is required for all travelers. A rapid antigen test will not be accepted.
